

DTC
United States Department of State

Washington, D.C. 20520

JUL -5 2011

Dear Mr. Speaker:

Pursuant to Sections 36(c) and 36(d) of the Arms Export Control Act, I am transmitting, herewith, certification of a proposed manufacturing license agreement for the manufacture of significant military equipment abroad and the export of defense articles, including technical data, and defense services in the amount of \$100,000,000 or more.

The transaction contained in the attached certification involves the export of defense articles, including technical data, and defense services to Japan for the manufacture, assembly, inspection, installation, test, and sale of auxiliary power units for use in CH-47, SH-60K, UH-60J, SH-60, and UH-60 helicopters and landing craft air cushions (LCACs) owned and operated by the Japanese Ministry of Defense.

The United States Government is prepared to license the export of these items having taken into account political, military, economic, human rights, and arms control considerations.

More detailed information is contained in the formal certification which, though unclassified, contains business information submitted to the Department of State by the applicant, publication of which could cause competitive harm to the United States firm concerned.

Sincerely,

Joseph E. Macmanus
Acting Assistant Secretary
Legislative Affairs
